"Foam Lake Visitor Centre" on Facebook

Did you know Foam Lake is part of the Quill Lakes International Birding Area?

You can visit our Foam Lake Heritage Marsh, a large staging area in the fall for thousands of geese, ducks, cranes and swans on their southward migration. Hunters from all over North America take advantage of the hunting opportunities presented by the birds, which utilize the Heritage Marsh on their migration.

The Heritage Marsh also presents an excellent opportunity for Birdwatchers and nature enthusiasts who wish to view the wide variety of birds and animals that inhabit the marsh year round.

Ask the friendly Visitor Centre Staff for more information, or directions out to our viewing areas!
